UPCOMING WEBINAR

**Designing for
Safety Emergency
Eyewash & Shower
Equipment**

Tuesday, April 16, 2019 – 9:00am to 10:00am

An overview of the types and use of emergency wash equipment, latest ANSI requirements that affect design, and tepid water requirements for emergency equipment.

Learning Objectives:

1. Explain the importance of emergency eyewash and shower equipment in settings where users are exposed to hazardous substances
2. Comply with regulations and design best practices for locating and specifying emergency eyewash and shower equipment
3. Incorporate emergency eyewash and shower equipment in workplace and teaching environments
4. Comply with tepid water requirements for emergency fixtures by incorporating a tepid water solution

Ryan Pfund, Co-Presenter: Ryan is a Senior Product Manager at Bradley Corporation with over 17 years of product management experience. He is responsible for managing the Emergency Drench Showers and Eyewash product lines and Thermostatic Mixing Valves product line at Bradley Corporation. He is a member of ISEA, the International Safety Equipment Manufacturers Association and a contributing member of the committee that develops and maintains the **ANSI/ISEA Z358.1** performance standard for emergency eyewash and shower equipment. Ryan has also written several articles in trade publications on important design considerations for eyewash and drench showers, tepid water and signaling systems.

About the Sponsor

Bradley Corporation features an industry-leading assortment of commercial plumbing products in the world. Architects and specifiers look to Bradley for the most innovative products in categories such as: washfountains, multi-station lavatory systems, terreon solid surface products, emergency eyewash fixtures and drench showers, electric tankless heaters, patient care lavatory units, commercial faucets, commercial & group showers, washroom accessories, solid plastic locker systems, washroom partitions. Bradley makes it easy to specify these products through a seasoned customer service staff and the best information tools in the industry.
